

AES Public Meeting Announcement **Tuesday, August 22, 2000** **8:30am - 3:00pm**

Laredo Community College
De La Garza Building, Room 101
Laredo, Texas

If your company isn't using AES to file SEDs, why not?

Come to this public meeting and learn more about AES, the Automated Export System. We'll explain what it is, and why you should get on board. We'll even show you how many of your competitors are taking business away from you because they are already using AES.

This meeting is intended for companies who aren't yet using AES or AESDirect. AES has modernized export reporting by virtually guaranteeing compliance, reducing costs, and speeding the process of exporting. Faxed SEDs are no longer accepted, and the paper SED will be changing in October. AES is important to you and the future of your exporting business.

Presentation topics will include:

- ❑ A complete presentation on what AES is, and how it works
- ❑ A live demonstration of the Census Bureau's free www.AESDirect.gov
- ❑ The current status of AES, and planned enhancements
- ❑ A Question and Answer exchange
- ❑ A panel of AES users to tell you directly about their experiences
- ❑ Discussion of the changes in export regulations
 - ❑ The new SED
 - ❑ The new US Principle Party in Interest description
 - ❑ Mandatory filing of Commerce Control List and US Munitions List shipments
- ❑ And other important topics

For more information about AES, please visit www.customs.gov/aes or call: (800) 549-0595. For more information about AESDirect, please visit www.aesdirect.gov.

We look forward to seeing you there.

*The Automated Export System
AES is a joint program of the US Customs Service and the US Census Bureau
for electronic collection of export shipment information.*
